Frequently Asked Questions

Customer Service is Here To Help.

We are proud to have a local, Houston-based Customer Service team always available to help address any concerns or issues you may have. For any questions or information, please call us at **855.645.8448**.

Q: Are referrals needed to see a specialist?

A: No referrals are required to see an in-network specialist. However, if the request is to see a physician that is out-of-network, prior authorization will be required.

Q: What pharmacies are included in the preferred pharmacy?

A: CVS, Walmart, HEB and Memorial Hermann Pharmacies are some of the preferred pharmacies. If you have any questions about any other pharmacy, please contact Customer Service at **855.645.8448**.

Q: What is the Donut Hole?

A: Also known as the Coverage Gap, this is a temporary limit on what the drug plan will cover. The gap begins after you and your drug plan have spent a certain amount for covered drugs. After meeting your initial coverage limit of \$4,130 for 2021 plan year, you're in the coverage gap. During this stage, you pay discounted prices for Formulary drug coverage – 25% of the cost of brand name drugs and 25% for generic drugs – until you meet your yearly out-of-pocket maximum drug cost of \$6,550 in 2021. This amount and rules for counting costs towards reaching this amount have been set by Medicare.

Q: What is a Late Enrollment Penalty and Why am I Receiving this Bill?

A: If you disenroll from Medicare prescription drug coverage and go without creditable prescription drug coverage for a continuous period of 63 days or more, you may have to pay a Part D late enrollment penalty if you join a Medicare drug plan later. ("Creditable" coverage is the coverage that is expected to be paid on average, which is at least as much as Medicare's standard prescription drug coverage.) Memorial Hermann *Advantage* issues a monthly invoice which details the member's Late Enrollment Penalty.

Q: Are shots for shingles covered and where can I get one?

A: This shot (Zostavax Suspension Reconstituted 19400 Unt/0.65MI Subcutaneous) is covered under a member's Part D benefit. This injection must be provided at the pharmacy or by your healthcare provider.

Primary Care Physician (PCP) Requirement

PCP Requirement

For the 2021 plan year, all Memorial Hermann *Advantage* members are required to select a Primary Care Physician (PCP) upon enrollment. The better your PCP knows you, the more they can help you be successful; healthcare is different for everyone. Here are some reasons why your relationship with your assigned PCP is important and how to navigate this requirement:

Your Primary Care Physician (PCP) is the captain of your healthcare team.

This provider is your first point of contact and most likely will be the first to see signs of things like depression, chronic disease or other health concerns. Their job is to make sure you get the right care in a way that fits your needs and values. This could include managing those symptoms or referring you to a specialist when necessary.

Working with a PCP can help you better manage your future healthcare costs.

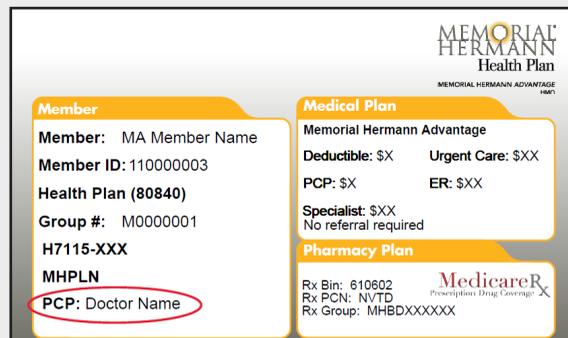

Maintaining a relationship with your PCP provides more opportunity to track incremental changes in your health and to create a plan of action, before it becomes a greater issue with potential financial and health implications.

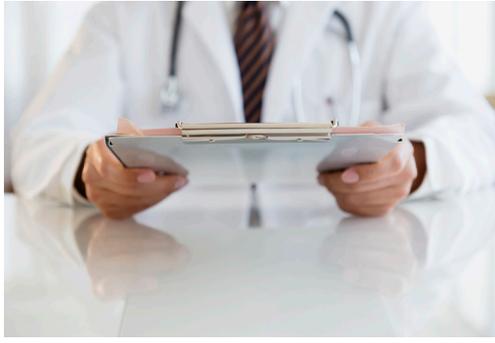

Your PCP can work together with your specialist. You do not need a referral from your PCP to make an appointment with a specialist. However, it is strongly recommended that you work with your PCP or discuss your plans to see a specialist ahead of time. This way they can help best coordinate your care and share any necessary details with the specialist.

A PCP can also assist with finding in-network specialists for you to receive the highest quality, most affordable care.

Your PCP is selected by you. If you did not select a PCP at time of enrollment, one was selected for you and assigned based on time and distance requirements. You may change your assigned PCP at any time by calling our Customer Service team at **855.645.8448** for help. PCP changes made after the 1st of the month will be effective on the 1st of the following month.

Please visit healthplan.memorialhermann.org/medicare-advantage/resource-center/member-faq for related PCP FAQ or call us at **855.645.8448** with questions.

Annual Wellness Visit

A new year brings the opportunity to maintain or improve your overall health. Start by scheduling your Annual Wellness Visit with your primary care physician (PCP). Your Annual Wellness Visit is an excellent way to develop and update your personal health prevention plan. This plan can aid in preventing future illnesses based on your current health situation and risk factors.

Your Annual Wellness Visit provides the perfect forum to discuss health problems that you were always meaning to ask your doctor about but haven't had a chance to, such as frequent falls, medication issues, brain fog, urinary incontinence or leakage. In addition, by completing your Annual Wellness Visit, you are eligible for a gift card worth \$25. For more detailed information on our rewards program, please see page 8 or visit healthplan.memorialhermann.org/medicare-advantage/healthy-advantage-wellness-program.

The beginning of the year is an excellent time to set goals and accomplishments for the months to come. Don't overlook how important it is to take care of your health and wellness. Make plans to schedule an in-person or virtual visit via phone or online today.

To search for a provider, visit healthplan.memorialhermann.org/find-a-doctor.

Also, in order to keep track of your general health, new and existing members will be sent a personalized letter outlining a list of health services that have not been completed. This letter will describe what services are due, as well as details on how to schedule for them.

New to the Plan?

If you're new to Memorial Hermann Medicare *Advantage* and have not been contacted already, our Medical Management team will be conducting individual **Health Risk Assessments (HRA)** with each new member to the plan.

Health Risk Assessments are beneficial for you and our team to review your current health conditions and needs in order to be knowledgeable of your general well-being.

During this call, you will also have the chance to schedule future appointments or preventative services, including your Annual Wellness Visit. We look forward to getting to know you and your healthcare needs during this assessment.

What does an Annual Wellness Visit consist of?

- A review of your medical and family history
- A review of your current medications
- Height, weight, body mass index (BMI) and blood pressure stats
- Hemoglobin A1c for diabetes and other routine measurements
- Screening for depression and any cognitive impairments
- Advanced care planning
- An opportunity to establish health goals
- Scheduling of preventive health services such as immunizations, annual eye exam, mammogram, and colon cancer screening

Pharmacy Benefits FAQ

Pharmacy Benefits FAQ

Q: What is Navitus Health Solutions?

A: Navitus Health Solutions is a Pharmacy Benefit Manager (PBM). A PBM primarily provides the pharmacy claims processing platform and supports administrative services for the pharmacy portion of health care benefits. Navitus will work with Memorial Hermann Health Plan and network pharmacies to provide cost-effective prescription drug benefits for Memorial Hermann Health Plan members and to improve member health and minimize their out-of-pocket costs.

Q: Will members still be able to get the same medications at their local pharmacy?

A: Yes, for most members the prescriptions they currently receive will continue with no changes. There may be a few pharmacies that will no longer be in Memorial Hermann Health Plan's pharmacy network. Members can call Customer Service to ask specific questions on pharmacies and prescriptions that they are taking. You can also search for network pharmacies at: healthplan.memorialhermann.org/find-other-services.

Q: How do members find a network pharmacy?

A: Look in the Pharmacy Locator on Memorial Hermann Health Plan's website at healthplan.memorialhermann.org/find-other-services or call Customer Service at **855.645.8448** for additional information. COVID-19 & Vaccine FAQ

Q: What are the symptoms of COVID-19?

A: Similar to many viral respiratory illnesses, the symptoms of the virus mimic the common cold and include mild to severe respiratory illness with fever, cough and difficulty breathing. Symptoms may appear between 2 to 14 days after exposure to the virus. Also be mindful that we are in flu season and pollen counts are high, so there are many other causes for upper respiratory symptoms that are much more common than COVID-19. To learn more visit Memorial Hermann's Everyday Well Blog, which lays out the symptoms and offers advice on what to do if you think you might have the virus, at blog.memorialhermann.org/recognizing-the-symptoms-of-covid-19.

Q: What is the process when you think that you have the symptoms of COVID-19?

A: Based on CDC guidelines, if you think you may have COVID-19 and are experiencing minor symptoms, it is recommended that you self-quarantine at home for at least 14 days. We recommend that you utilize our Memorial Hermann virtual care options at memorialhermann.org/virtual-care to consult with a healthcare provider. If you have a Primary Care Physician (PCP) who is now utilizing virtual care for office visits, the copay is still \$0 for members. For severe symptoms, call ahead to your local Emergency Center prior to arriving or dial 911 if you need emergent care.

Q: Is COVID-19 testing covered?

A: Through February 28, 2021, all cost-shares and co-pays associated with COVID-19 diagnostic testing will be waived, regardless if the doctor is in or out of network. In addition, Telemedicine, such as Teladoc and virtual care visits, are paid at 100%. This benefit update will be reevaluated each month by the Health Plan.

Q: Will the COVID-19 vaccine be covered?

A: Yes. Members will not have to pay any out-of-pocket costs for a COVID-19 vaccine. CMS has indicated it will pay for the cost of the vaccine for all Medicare beneficiaries, including those in a Medicare Advantage plan.
